### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach : Regarding Claim(s) 1, a process for providing a guidewire for intraluminal use in a medical procedure, comprising: forming a flexible body by co-drawing a wire having an exterior of a first radiopacity, and a high strength interior of a second radiopacity, wherein the first radiopacity is greater than the second radiopacity; wherein the exterior of the wire includes a material selected from the group consisting of platinum, palladium, iridium, and alloys thereof; wherein the high strength interior includes a material selected from the group consisting of tantalum, tungsten, and alloys thereof; and disposing the flexible body on the distal core section; and Regarding Claim(s) 5, a process for providing a guidewire for intraluminal advancement of a medical device within a patient, comprising: providing an elongated core member having a proximal core section and a distal core section; providing a first coil by cladding a highly radiopaque exterior including a material selected from the group consisting of platinum, palladium, iridium, and alloys thereof, over a high strength interior including a material selected from the group consisting of tantalum, tungsten, and alloys thereof, to form a wire, wherein the highly radiopaque exterior of the wire has a transverse cross-section of at least 10% of the first coil in combination with the other elements of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
